2025 Collection

betik

The taste of life

At BETIK, we have been crafting products that adapt to people's lifestyles for 85 years. A way of life that has changed over time, incorporating endless forms of enjoying it.

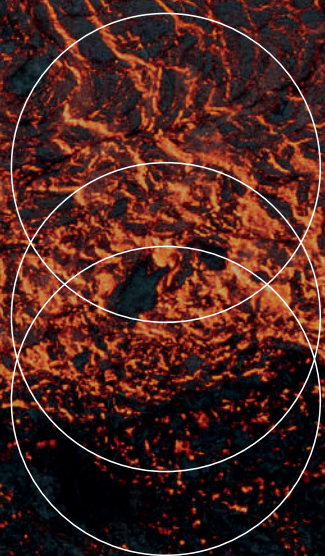

New tastes, new formats, new ways to live each moment, all offer an unending source of inspiration that allow us to create new ideas, designs and solutions.

It is precisely because we listen to the market, to the latest trends and to people that we have become one of Europe's points of reference for hotel, restaurant and catering business products.

An aerial photograph of a volcanic crater. The central part of the crater is filled with bright orange and yellow lava flows, which appear to be moving and bubbling. The surrounding rim and interior slopes are covered in dark, jagged, and porous-looking volcanic rock. The contrast between the dark rocks and the glowing lava is striking. The word "betik" is overlaid in the top left corner in a white, serif font.

betik

A design for every moment

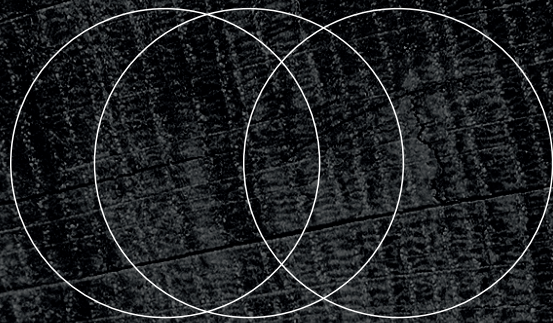

It might not be easy to define us, but we are in no doubt exactly what is important for us and our customers. Creating quality products that are both versatile and functional and which elevate our gastronomic experience, however simple that might be.

In Betik you will find a whole lot more than just tableware: Design and gastronomy moments, Betik moments.

betik

DESIGN

We create stylish, elegant and unique products in collaboration with prestigious studios.

Our latest collection features over 140 exclusive products designed in-house.

INNOVATION

In constant search of new functionalities and materials.

We have incorporated new 170 references in this latest catalogue with respect to 2024.

We are pioneers in the design of sugarcane plates and melamine tableware.

Other outstanding innovations in our catalogue include lightweight stainless steel cutlery and self-closing paper lids.

SERVICE

Always adapting to the needs of our customers and the market.

Each customer is assigned a dedicated Betik key account manager.

A team of 20 agents in Spain and Southern Europe.

48-96 hour delivery within mainland Spain.

Shipments throughout the EU.

Three warehouses in Europe with a total storage capacity of 15,000 pallets.

A whole lot more than just tableware

betik

VERSATILITY

A **one-stop shop** thanks to our:

Over 1,000 products in stock.

+14 product families.

Diverse materials available.

Ability to customise products for our customers.

Option to supply unbranded or private label products.

SUSTAINABILITY

Incorporating recyclable and compostable product alternatives that help minimise environmental impact.

Our compostable range stands out in particular.

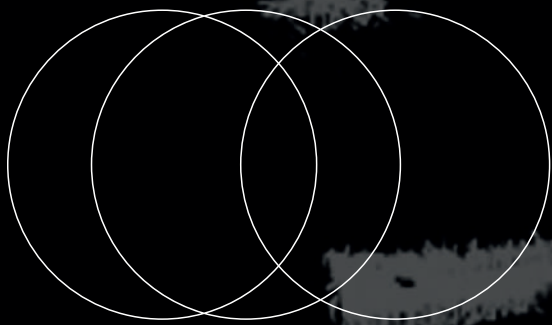

Materials: sugarcane, palm leaf, wood, bamboo and paper.

A whole lot more than just tableware

betik

Committed to gastronomy

We are partners with the Basque Culinary Center, a pioneering academic institution with an international reputation. Thanks to this alliance, Betik has made itself a niche in the professional gastronomy sector, warmly welcomed and recognised by chefs, restaurants, bars and other in the hotel and restaurant sector.

betik

Materials

Biodegradability is the ability that substances and organic materials have to decompose into simpler substances through the (enzymatic) activity of microorganisms.

Compostability is an organic matter's ability to become compost through the process of composting. Composting is an aerobic biological process (which takes place in the presence of oxygen), controlled by people. It results in the production of a mixture of organic matter.

Recycling is a process that aims to convert waste into new products or starting materials for subsequent use.

Reusable Galaxy

This collection, inspired by the organic forms found in nature, is ideal when you want to give an elegant designer touch to your terrace restaurant or bar. Thanks to the tableware's strength and ability to withstand repeated use, it has become a firm favourite among all types of establishments.

Items made with resistant acrylic materials such as melamine that can be used again and again.

Compostable Galaxy

Made from biodegradable materials, our compostable collection is the perfect choice for your events and for nature, as these products naturally and safely break down in the soil.

Our wide range of single-use products are made from materials such as sugarcane, palm leaf and bamboo. They are also an eco-friendly alternative inside as well as out, creating highly attractive forms and texture that suit any moment.
